It started to rain, and the next morning the seed had a little green shoot.

The next day it had its first leaf. This helped it to catch sunlight and grow.

One day, a seed fell out of a bag and onto the hot, dry ground.

Many years of sunshine and rain passed.

Now it is big and strong and makes seeds of its own.

A buffalo walked on the seed and pushed it into the ground.

One day, a bird tried to eat it. But the seed had roots to help it stay in the ground.

The seed became a plant and then the plant became a tree.
